ABOUT KRATOS

Kratos Sarl is a construction company under Congolese law, born out of a genuine passion for the design and realization of civil engineering works. The motivation of our team is a key factor in our success. We are passionate about our work and are committed to meeting the highest expectations. We constantly strive to improve our skills, stay up-to-date with the latest advancements in our field, and offer innovative solutions to our clients.

"We are based in Kinshasa and Kolwezi, and we are registered under the number **CD/KNG/RC-CM/24-B-00876**, with a national identification **01-F4200-N56811T**.
Tax number: **A2410466D**.

Our headquarters is located at 5573 Boulevard du 30 Juin, in the Gombe district of Kinshasa, DRC.

The name Kratos Sarl comes from the Greek word "kratos," which means "power" or "strength."

"Strength lies in the one who knows how to control it."

WELCOME

We are proud to present our company, whose expertise and skills are based on a leading design and execution office. We are determined to offer quality services through our team of experienced and motivated professionals.

Thanks to our expertise and commitment to excellence, we are able to offer reliable and solid technical solutions, tailored to meet the specific needs of our clients.

MISSION – OBJECTIVES & VALUES

MISSION: Kratos Sarl is committed to offering quality products on time, while focusing on the development of skills and continuous improvement, in order to effectively meet the expectations of our clients.

Our vision is to leave a lasting legacy through our achievements for future generations.

OBJECTIVE: The focus is on building a heritage that will withstand the test of time and have a positive impact on future generations.

At Kratos Sarl, our actions are guided by fundamental values that define how we work and interact with our employees, clients, and partners.

Values :

1. we live for a challenge;
2. We do the right thing;
3. We succeed together;
4. We take care of each other;
5. We build trust

"A solid construction rests on well-established foundations."

OUR ADVANTAGES

At **Kratos Sarl**, we specialize in providing a full range of construction services, including design, execution, and operation of projects for both individuals and professionals.

Our experience in project management allows us to ensure complete and optimal handling of each project entrusted to us

We understand that every project is unique, which is why we place the highest importance on personalized treatment and tailored support.

1

DESIGN

- Kratos Sarl has a team of experts (engineers, architects) to design high-quality works that meet standards.
- The design process involves a thorough study of needs, the environment, and the creation of innovative technical plans.

2

EXECUTION

- The company has proven expertise in executing construction projects, from structural work to final finishes.
- It relies on a skilled workforce and a fleet of high-performance equipment to ensure quality and adherence to deadlines.
- Strict site monitoring is ensured by dedicated project managers.

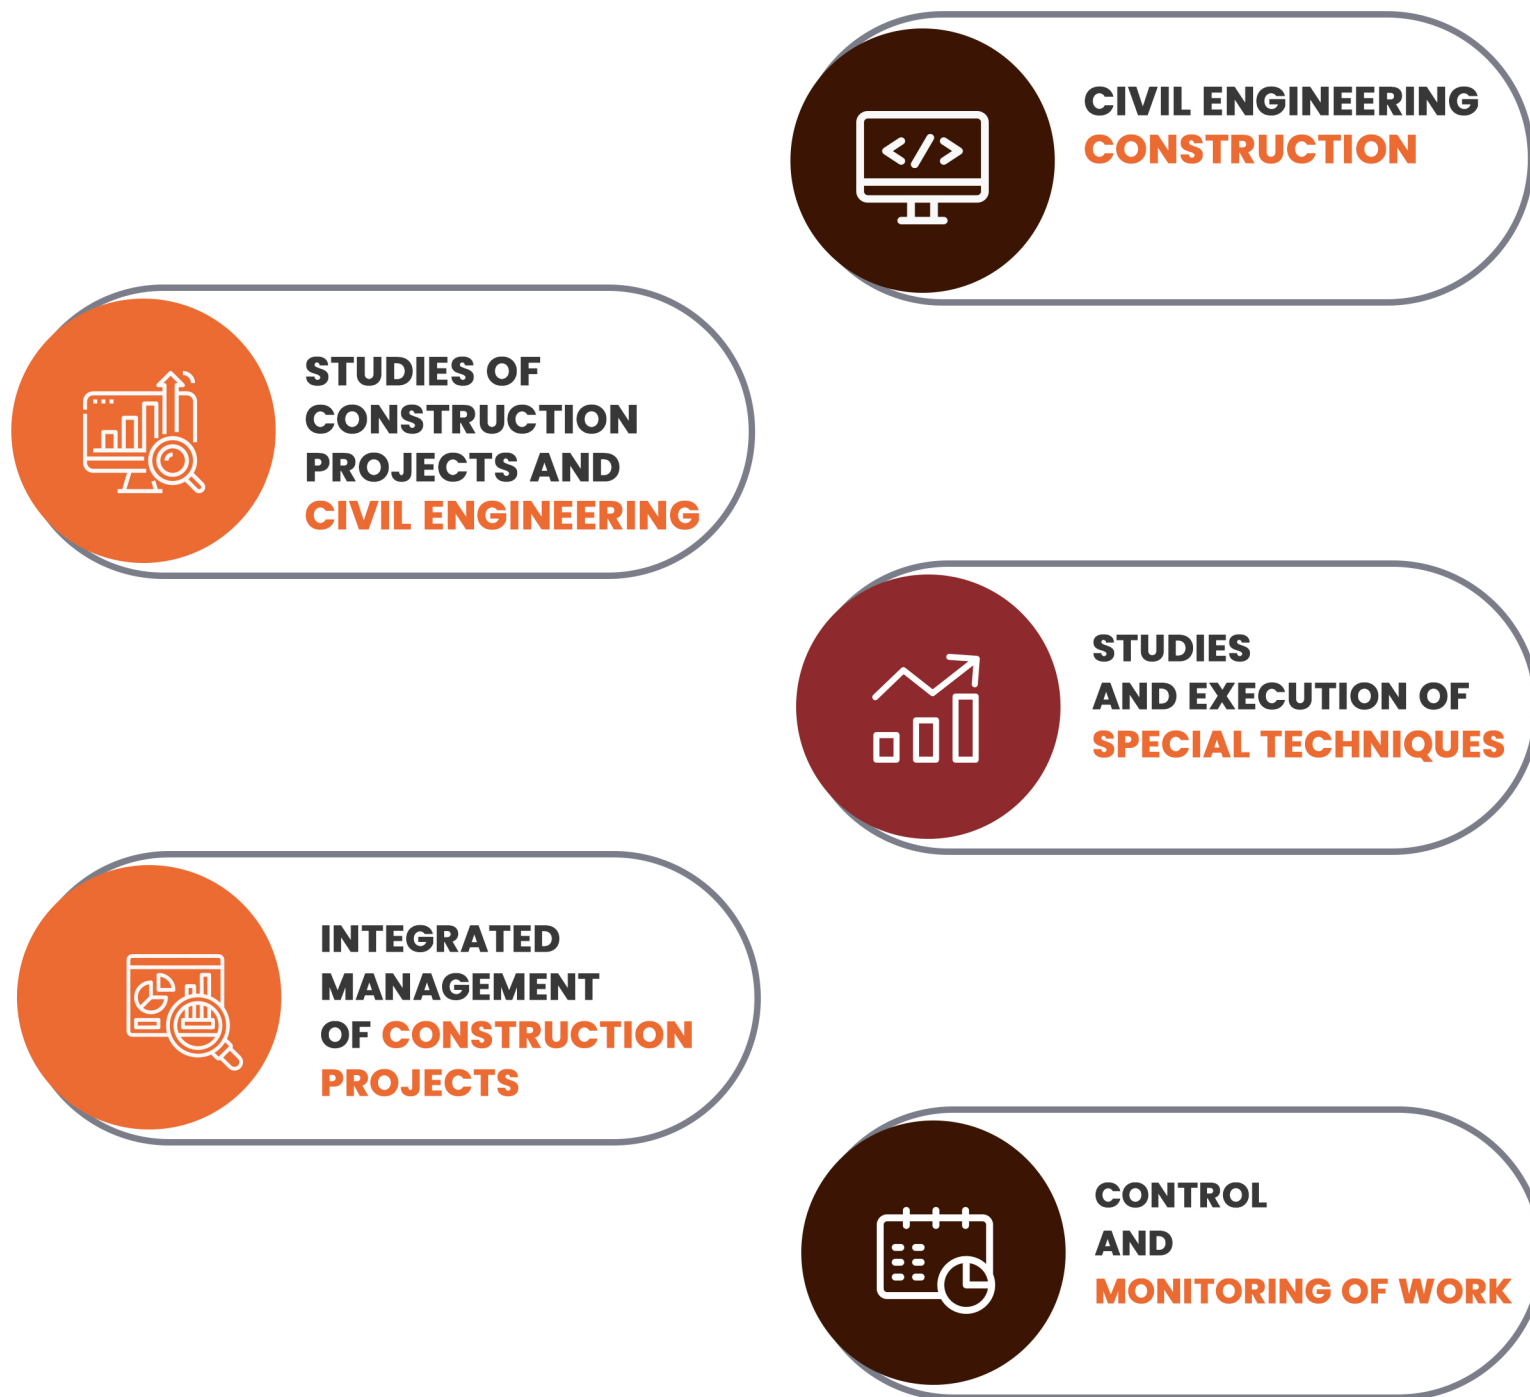

3

OPERATION

- Kratos Sarl offers operation and maintenance services for completed works.

WHAT WE DO

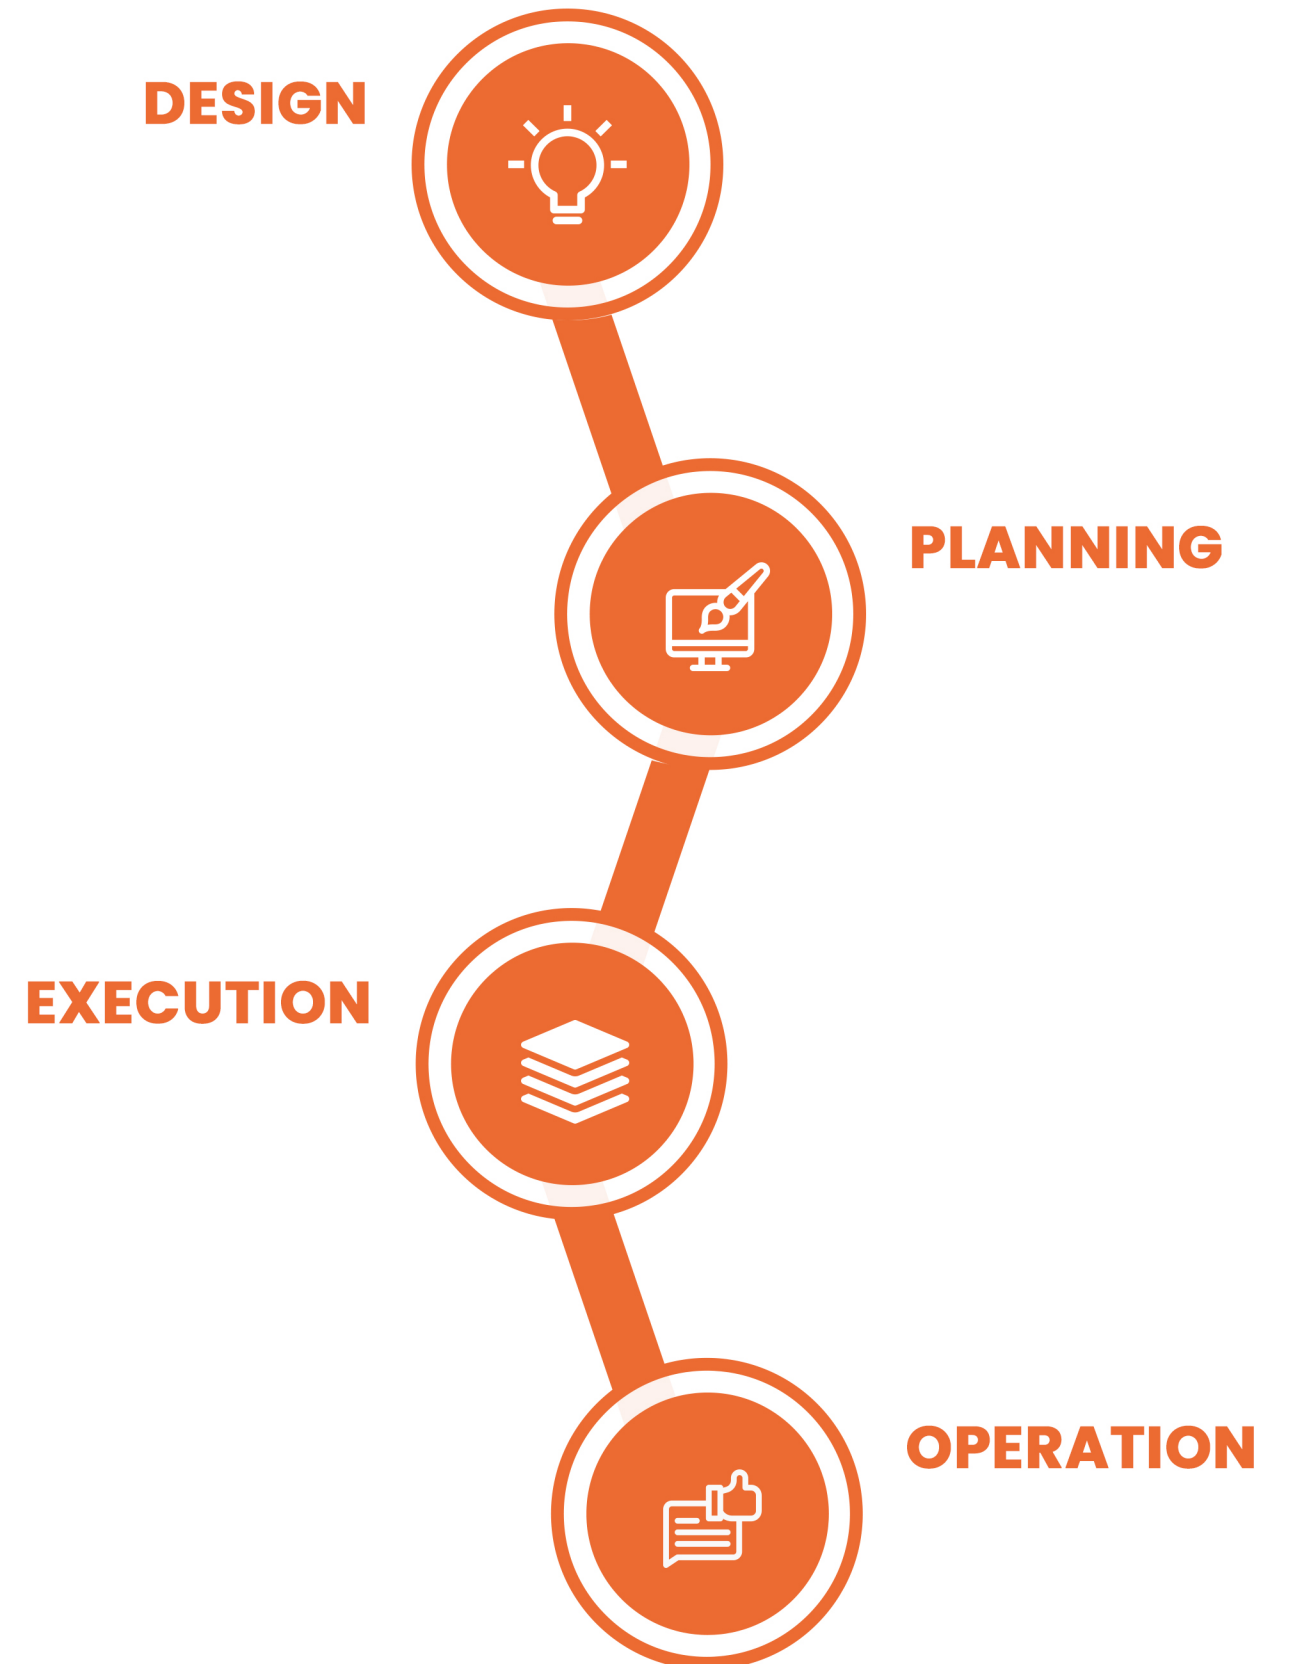

OUR SERVICES

We also rent various construction equipment, such as scaffolding, portable toilets, and road rollers, etc

HOW WE WORK

No matter your project, Kratos Sarl supports you, identifies all your needs, and offers reliable and solid technical solutions customized to meet your expectations.

EQUIPMENT RENTAL

We are delighted to introduce our range of machines and equipment available for rental to support your projects. These tools are designed to meet your needs in construction and various types of work:

- 1. Scaffolding:** Perfect for working at heights, these sturdy structures ensure safety and efficiency on your sites.
- 2. Chemical Mobile Toilets:** Practical and hygienic, they are ideal for construction sites or temporary events.
- 3. Rebar Cutting Machines:** Enable precise and fast cuts to meet your reinforcement needs.
- 4. Rebar Bending Machines:** Provide enhanced flexibility and precision for shaping rebar according to your specifications.
- 5. Roofing Sheet Machines:** Ideal for producing roofing sheets with excellent quality and durability.
